About B Greenly

“

B Greenly is an international organisation dedicated to certifying the sustainability of events, venues and companies.

Our goal is to **preserve the planet** so that future generations can enjoy the same or better conditions. **We analyse, evaluate** and **audit** the sustainability status of all types of events or venues for certification.

Being B Greenly is a different way of seeing the world of culture, sport, music and entertainment. It is to **see, feel** and **understand** the world through the experiences that **sustainability** brings us.

Purpose

To drive meaningful environmental and social change in the events and convention industry by setting credible, measurable sustainability standards that inspire transformation and accountability.

Mission

Through rigorous evaluation, transparent criteria, and ongoing support, we empower organizers and venues to reduce their environmental impact, promote social equity, and create positive legacies for their communities.

Vision

To be the leading global benchmark for sustainable practices in the events and convention industry—where every gathering becomes a catalyst for environmental responsibility, social inclusion, and long-term value creation.

B Greenly is the international standard in sustainability certification

We promote the sustainable culture of events, venues and companies all over the world.

At B Greenly, we allocate part of the cost of each certification to collaborating with social action and environmental aid programmes.

What is a sustainable event?

“

In today's stressful and fast-paced society, **events** play a key role in offering moments of **disconnection** and **enjoyment**. These events, which bring together large numbers, but **can also have an impact** on the environment in which they take place.

Every year, countless events are held around the world, and at B Greenly we work to ensure that many of them obtain sustainability certification. In this way, we contribute to **reducing negative impacts** on the environment, while at the same time **promoting sustainable values** in the **economic** and **social** spheres.

A sustainable event is an event that is designed, organised and produced in such a way that its environmental impact is as low as possible, while respecting the economic and social spheres in which it participates.

We certify all types of events

Conferences

Sporting Events

Corporate Events

Institutional Events

Cultural Events

Festivals

Fairs

Music Festivals

Galas & Awards

Gastronomic Events

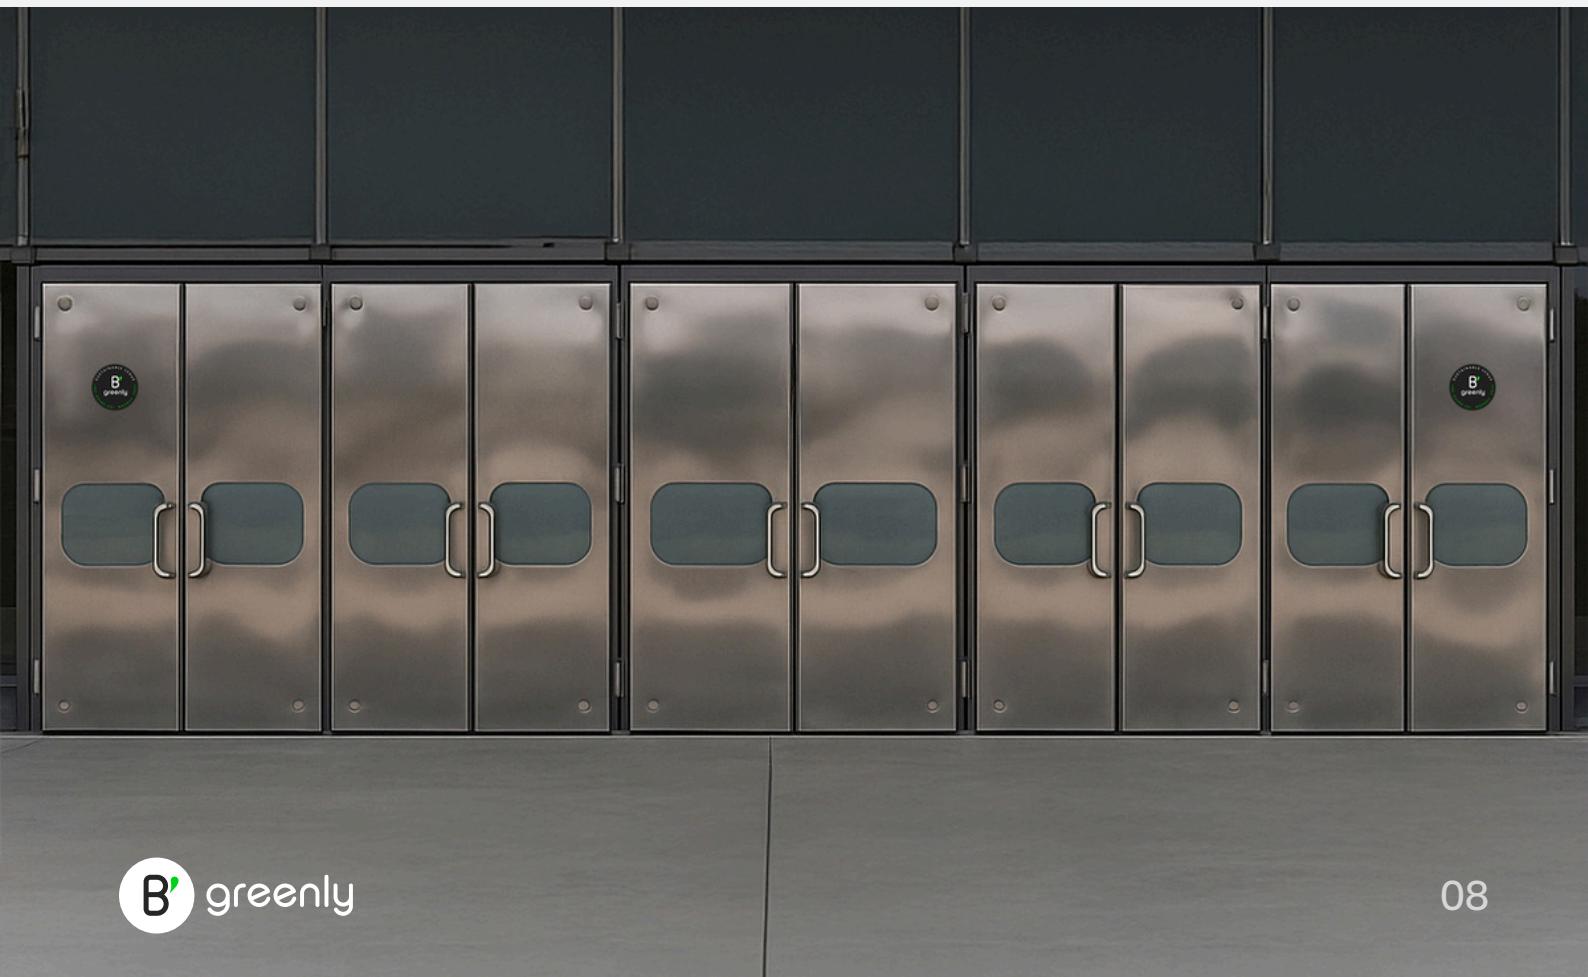

What is a sustainable venue?

“

A **sustainable venue** is not limited to the adoption of environmentally friendly practices. It is a concept that integrates **energy efficiency**, **responsible resource management**, the use of **sustainable materials** and the creation of environments that foster **human well-being** and **social cohesion**. From auditoriums that harness natural light to outdoor spaces that promote biodiversity, each element is woven into a narrative that prioritises respect for the planet and its inhabitants.

Today's event spaces need to make it a priority to be sustainable, applying practices that not only benefit the **environment**, but also take into account **social** and **economic** aspects of sustainability.

A sustainable venue is an venue that is designed, organised and produced in such a way that its environmental impact is as low as possible, while respecting the economic and social spheres in which it participates.

Sustainability certification for Corporates.

The **B Greenly Corporate Certification** distinguishes companies that place sustainability at the heart of their management.

It recognizes organizations that act responsibly, measure their impact, and work every day to generate positive value for people, the planet, and their business environment.

“ Obtaining this certification means going one step beyond commitment, demonstrating leadership, transparency, and credibility before clients, investors, and society.

What does it assess?

B Greenly Corporate conducts a comprehensive analysis of all areas of the organization, assessing its performance in environmental, social, and governance (ESG) matters.

The evaluation covers everything from risk management to corporate communication, applying a cross-cutting and strategic perspective.

Why obtain it?

- Strengthens your reputation and positioning as a sustainable company.
- Improves internal efficiency and reduces operational costs.
- Builds trust among your stakeholders.
- Compliance with regulations and laws.
- Actively contributes to global sustainable development.

Your commitment, our certification.

Continuous improvement is the way forward, and the objective is clear: to minimize environmental impact and generate sustainable value that benefits the entire community. With **B Greenly Corporate**, your company becomes a benchmark in sustainability and responsible leadership.

Our services

Transform your event, venue or corporate into a sustainable experience with our certifications.

Certification B Greenly Event

FAQ's

What is the basis of the B Greenly Certificate?

All certificates are private, there are no public certificates. B Greenly is based on the main global bodies that are a reference in terms of sustainability, such as the Sustainable Development Goals (SDGs) and the 2030 Agenda, the United Nations Environment Programme (UNEP), the Global Reporting Initiative (GRI) methodology, the metrics of the World Economic Forum (WEF), various European Union (EU) Directives and Regulations, and any other relevant Standard in the field.

What is the methodology B Greenly?

B Greenly's working system is based on parameters and metrics derived from the main world bodies that are a reference in terms of sustainability. It is a fast and agile system that allows an event or venue to be certified anywhere in the world.

Can B Greenly help make an event, venue or company to be sustainable, without the need for certification?

Of course, B Greenly is supported through its Manual of Organisation and Good Practices for sustainable events, venues and companies.

FAQ's

Where can I find references for certified events, venues or corporate B Greenly?

Both on our website and on our social networks (Instagram and Linkedin) there are specific references to events, venues or companies certified by B Greenly.

How long does a B Greenly certification last?

The B Greenly Certification for events is valid for the date of the event. In some cases, our clients organise several events during the year, in these situations a Certificate valid for the whole year is issued. On the other hand, the validity of the certification for a venue/corporate is for three years.

What is the cost of a B Greenly certificate?

B Greenly has annual rates, the cost of a B Greenly Certification will depend on the type of service contracted and the event, venue or company to be certified.

Can a natural person be B Greenly?

No, B Greenly certifies events, venues or companies, not people. A person can organise/direct an event, venue or company and B Greenly can certify them, but not the person.

FAQ's

Is there a specific type of event, venue or company in order to be certified by B Greenly certified?

B Greenly is dedicated to the certification of sustainable events, venues or companies of any size and type. The parameter lists and methodology are adapted to any kind of event, venue or company, regardless of size.

How do I make it known that the event, venue or company is B Greenly?

On our website and social media we publish all events, venues and companies certified by B Greenly. In addition, our clients publicise the awarding of the certification in their media, web and networks.

Can B Greenly Certification affect the quality, design, aesthetics, etc. of the event?

B Greenly certification helps to improve management processes, making them more efficient and, above all, more sustainable. Whenever there are some proposals, they are for improvements in the organisation.

I am an event, venue or company B Greenly, what now?

First of all, congratulations, this means that the event, venue or company is sustainable. From this moment on, we will be improving areas and parameters so that each year the level of sustainability increases. Sustainability is a long road that requires will, time and perseverance.
